

Join us for the
WATERSHED WISE LANDSCAPE PROFESSIONAL TRAINING
an EPA WaterSense Certified Irrigation Systems Auditing Program

 **FEBRUARY 9 & 10, 2017**

 **7:30 AM - 5:30 PM**

 **WESTSIDE COMMUNITY CENTER**
423 W VICTORIA ST, SANTA BARBARA

This certification is designed to train professionals and their clients on the benefits of building healthy living soil and managing rainwater to reduce irrigation.

The 'new normal' in California landscaping is the watershed approach. **Get on the cutting edge of the future of landscaping.**

Sign up and learn how to:

- Conduct a landscape water audit and site evaluation
- Remove lawn and build living soils
- Design and site rain gardens
- Calculate irrigation run times and precipitation to eliminate runoff
- Identify new water efficiency techniques and technologies

Certified professionals will be added to a searchable list of landscape specialists promoted locally as well as the EPA WaterSense National Directory.

Brought to you by the Network of Santa Barbara County Water Providers
